

RULES & REGULATIONS

RULES & REGULATIONS

Please read these Rules & Regulations in their entirety – if you have any questions or concerns, contact Katie Coon at coonk@nrf.com or (202) 661-3054 BEFORE finalizing your booth design and layout

ARE YOU ON LEVEL 1 OR LEVEL 3?

The NRF EXPO Hall is on two floors – Level 1 and Level 3. If your booth number is between 100 and 1299, you are on Level 1. If your booth number is between 1300 and 4599, you are on Level 3. Please be sure to follow the rules and regulations for the correct hall, as there are some differences (primarily the installation times and the height of island booths).

If you do not know if you are on Level 1 or Level 3, please contact Katie Coon coonk@nrf.com.

ARE YOU AN ISLAND OR IN-LINE BOOTH?

An island booth is defined as a booth that has an aisle between it and all of its neighbors. All other booths are considered in-line booths. If a booth only shares its back wall with another exhibitor, it is an in-line booth, NOT an island booth, and must adhere to the in-line booth guidelines.

In-Line Booth Construction Guidelines

In-Line Booths may not exceed 8' back wall height, including the sign. No solid exhibit construction will be permitted to exceed 42" in height in the front 5' of the booth. Structures above 42" must begin *at least* 5' back from the aisle line. Company name, logo and product information may appear up to the 8' height only.

Island Booth Construction Guidelines

If you have a hanging banner, there must be a 2' clearance from the highest point of your booth property to the bottom of your hanging banner.

- The height limitation for island booths on Level 1 is 16'. That means 16' from the top of your hanging banner to the floor, or the top of your booth property, if you do not have a hanging banner.
- The height limitation for island booths on Level 3 is 24'. That means 24' from the top of your hanging banner to the floor, or the top of your booth property, if you do not have a hanging banner.
- Photographs and/or sketches of the proposed island exhibit must be submitted for approval by Friday, October 28, 2016. All booth sketches must clearly state the actual height of the exhibit. Since an island exhibit is separated by the width of an aisle from all neighboring booths, full use of the floor space is permitted, provided sufficient see-through areas are present to prevent blocking views of adjacent exhibits.
- Any stage that is part of the booth must face the middle of the booth, and all speakers and A/V that are part of the presentation must be directed inside the booth. The booth must also have sufficient room for spectators of the presentations, as attendees will not be allowed to stand in the aisles to watch presentations. After seeing the booth layout, if Show Management feels the presentations may affect surrounding booths, a schedule of presentations will be required, and will be distributed to surrounding booths.
- **Two-Story Booths** are permissible only if the exhibit is centered in the **Island Booth** space, providing sufficient see-through areas to prevent blocking view of adjacent exhibits. Additionally, no more than 60% of the island booth space may be occupied by the two-story booth and the unit must be located in the center of the company's exhibit booth area. **All two-story booths must adhere to the rules found in the Double Decker – Javits info sheet in this manual.** For any questions regarding the process, please contact Ken Martin at kmartin@javitscenter.com or (212) 216-2577.

All Island Booth layouts and structures must be approved by the NRF.

Peninsula Booths will not be assigned.

**RULES &
REGULATIONS**

GENERAL BOOTH CONSTRUCTION GUIDELINES

- No exhibit may span an aisle by ceiling or floor covering.
- Exposed or unfinished sides and/or exhibit backgrounds must be draped to present an attractive appearance. Exhibits will be inspected during the move-in and the service contractor, with the approval of the NRF Show Manager, will provide draping deemed necessary and submit the bill to the exhibitor. NRF reserves the right to base all decisions on the best interests of all concerned parties. All decisions are final.
- **Multiple Booths Sharing a Common Aisle:** A Company may reserve two or more island booths at an NRF event; however, these booths may not be located in such a manner that they are situated across from each other on a main, transecting aisle of the Exhibit Hall. Additionally, employees of an exhibiting company that reserves two or more island booths are required to remain in the confines of their respective exhibit spaces and are not permitted to block traffic in the intervening aisle.
- **ALL BOOTH CONSTRUCTION GUIDELINES WILL BE STRICTLY ENFORCED.**

INSTALLATION & DISMANTLING

Targeted exhibitor move-in begins at 1:00pm on Tuesday, January 10, 2017. Refer to the floor plan located in the Move-in, Labor, Freight, Hanging Signs & Shipping section for your booth's targeted move-in schedule. **If you will require additional set-up time, please contact NRF.**

Due to dock limitations, we ask that you ship your freight to Freeman Decorating Company for advanced warehouse storage and delivery to the Center. Exhibitors occupying 300 sq. ft. or more must follow the targeted floorplan. All exhibitor freight that arrives off-target will be assessed an additional 15% material handling surcharge. Please refer to Freeman's material handling form for rates*

Work Passes

Registered exhibitors may enter the Exhibit Hall during installation and dismantle by showing their badges to the security guard stationed at the entrance. Installation and dismantle companies must obtain work passes for all personnel at the Exhibitor Services Office. In the interest of safety, only those individuals directly responsible for the installation and dismantle of the booth will be permitted in the Exhibit Area during the move-in and move-out times.

Skilled labor will be available for hire during installation and dismantle. Exhibitors are urged to notify Freeman, in advance, of labor requirements. At the NRF Show Manager's discretion, any exhibit not in the process of being assembled by 12:00 noon Saturday January 14, 2017 will be installed at the exhibitor's expense. All exhibits must be fully assembled by 5:00 p.m. on Saturday January 14, 2017. Request for additional installation time before or after the specified installation hours must be made in writing in advance to the NRF Office.

Due to fire regulations, no empty cartons, fiber cases or literature may be stored in or behind booths. After move-in has been completed, please label all empties. The service contractor will place them in storage until the end of the show.

THE OFFICIAL CLOSING TIME OF THE EXHIBITION IS 5:00 p.m., TUESDAY, JANUARY 17, 2017.

NO PACKING OR DISMANTLING OF EXHIBIT MATERIAL WILL BE PERMITTED PRIOR TO THAT TIME. Violators will not be invited to exhibit at future NRF Exhibitions.

Access to Exhibit Hall

All workers and exhibiting company personnel must wear NRF BIG Show 2017 badges or work passes during move-in and move-out. At no time during the show (Move-In, Show Hours or Move-Out) are minors allowed on the show floor. **Anyone under the age of 18 will not be permitted on the show floor at any time.** No variances or exceptions to this rule will be made. NRF will not be responsible for watching any minors, so we strongly encourage exhibitors not to bring them to the building.

All personnel must vacate the hall no later than 30 minutes after the closing of the hall. No one will be admitted into the Exhibit Hall after show hours. If you would like to have a meeting during non-EXPO Hall hours, please refer to the form in this Service Manual.
